

# KBC 150 Ex BEACON /LIGHT

AUDIBLE & VISUAL SIGNALLING EQUIPMENT

## KBC 150 Ex BEACON /LIGHT

This beacon is certified for use in Atex/explosive atmosphere, zone 1 & 2 for gas and zone 21 & 22 for dust. It is dedicated for Oil & Gas, chemical, petrochemical, pharmacy industries, marine and Offshore applications. It's designed for corrosive environments and hazardous area. The KBC150 can also be used as status light.

This beacon can be delivered with two different light sources;  
 Led with steady, rotary, fixed or blinking led of different powers.  
 Flashing with XENON tube of different powers.  
 Four flashing frequencies are selectable.  
 Optional it is possible to control the beacon via a telephone line.

Housing is moulded Glass-Reinforced Polyester (GRP), dyed in the mass and protected by an UV resistant paint, the lens is made of borosilicate glass.

A complete range of accessories is available to customize a products.  
 (see accessories annex)

- zone 1 & 2
- zone 21 & 22

## PRODUCT CODE CONFIGURATOR

LENS COLOR	TYPE	POWER	VOLTAGE	DUTY LABEL	TAG LABEL	LENS GUARD	CABLE ENTRY	FINISH COLOR	TELEPHONE INITIATED

\* = without runoff - \*\* = optional - cable gland and blind plug not provided

### MEANING OF LENS COLOR USAGE IN THE INTERNATIONAL STANDARD (IEC 60073)

COLOR	MEANING	ACTION	EXAMPLE
■ RED	<b>EMERGENT</b>	Dangerous state Take immediat action	• Pressure/Temperature beyond the safe state - Shutdown due to the action of protective devices - Fire alarm - Equipment failure alarm
■ AMBER	<b>ABNORMAL</b>	Abnormal state, near the critical status	• Pressure/Temperature above the normal range - Protective device released - Toxic and harmful gases release alarm
■ GREEN	<b>SAFE</b>	Normal state	• Pressure/Temperature in normal state - Automatic control system is operating normally
■ BLUE	<b>MANDATORY</b>	Requires operator's action	• Emergency evacuation - Abandon rescue and escape - Abandon platform or abandon ship - Enter the command
■ CLEAR	<b>NO SPECIAL SIGNIFICANCE</b>	If uncertainty for other colors, clear is allowed to be used	• General information - Can't exactly use red, yellow, green or blue - Used for the implementation of command - Indicate the measured values
